

Call for Applications: African STARS ATT Fellowship

Advanced and Translational Training (ATT)

Are you an early-career scientist born in or based in Africa with a passion for genomics, diagnostics, or vaccine development?

The Centre for Epidemic Response and Innovation (CERI) at Stellenbosch University (South Africa) and the Institut Pasteur de Dakar (IPD) (Senegal) invite applications for the Advanced and Translational Training (ATT) Fellowship under the African STARS Fellowship Programme.

This fully funded 4 months fellowship offers hands-on training in:

- Advanced genomics for public health
- Genomic diagnostic design
- Vaccine & biomanufacturing

Eligibility:

- Born in and/or residing in Africa
- 35 years or younger
- Background in a relevant field (BSc required, MSc/PhD preferred)
- Strong leadership potential & commitment to Africa's scientific growth
- Fluent in English or French (both is an advantage)

Fellowship Benefits:

- Fully funded training (travel, visa, & accommodation)
- Monthly stipend
- Mentorship & leadership development
- Access to an exclusive alumni network

Application Deadline

31 March 2025
