

SCIENTIFIC SEMINAR SERIES

22 March 2023

The ARTIST trial and the expanding role of Tenofovir/Lamivudine/Dolutegravir in ART programmes

Time: 12h00 | Wednesday, 22 March 2023

Venue: Room 3073, BMRI, Tygerberg Campus or virtually*

Presenters: Prof Graeme Meintjes

Prof Graeme Meintjes is the Second Chair and Deputy Head of Medicine at the University of Cape Town, and also holds the SARChI Chair of Poverty-related Infections. He is an Infectious Diseases Specialist. He leads a research programme that focuses on clinical conditions affecting patients with advanced HIV disease including disseminated HIV-associated tuberculosis, cryptococcal meningitis, and IRIS. His group also investigates drug-resistant tuberculosis and diagnostics for TB.
